PATRICK W. ERVIN PROFESSIONAL RESUME

REGISTRATION:

Civil Engineer, California (License No. 86064)

EDUCATION:

B.S. Civil Engineering – California State University, Sacramento – 2013

EXPERIENCE:

Mr. Ervin is a registered civil engineer with over 3 years' experience in water resources engineering. Mr. Ervin's specific areas of practice include the design, permitting, project management and inspection of levee improvement projects in the Sacramento-San Joaquin Delta. Mr. Ervin also has experience with the design, project management and construction of pump stations for island drainage in the Delta.

RECENT EXPERIENCE INCLUDES THE FOLLOWING:

Reclamation District 348, New Hope Tract, San Joaquin County – HMP Levee Repair Project: Design engineer and construction inspector for the design and construction of levee improvements and pump station modifications to meet HMP levee standards for portions of the left bank of the Mokelumne River and right bank of Beaver Slough.

Reclamation District 341, Sherman Island, Sacramento County – Sherman Island Levee Improvement Project for “Little Baja” and “Manzo Ranch” Fish Release Sites: Design engineer, project manager and construction inspector for the construction of levee improvements to support two fish release sites on Sherman Island which included improving the levee to meet PL 84-99 levee standards, construction of a slope stability berm, realignment of the existing County road, and construction of a PG&E maintenance road. Inspecting engineer for the construction of the Project.

Sherman Island Pump Station #5 Repair and Improvement Project: Design engineer, project manager and construction inspector for the construction of the repair and improvement of Pump #5 on Sherman Island which included construction of a new multi-level, steel pump platform supported by six driven piles, and the installation of a new trash rack.
